**LETTER OF APPRECIATION**

**PRETECH** has designed a suitable customized scheme for our Methanol Distillation Column and has completely automatized this operation of this solvent recovery and consumption. We are able to get accurate data of tank inventory, MIP, solvent Inward and consumption report in real-time through this system. This is helping us in smooth supply chain management of solvent and effective planning of overall production.

We are glad to vouch for the strong technical abilities, futuristic approach and consistent support from **PRETECH**, which give them an extra edge when compared to the peers.

Siddhartha Deorah

Auro Laboratories Limited  
(Whole Time Director)
